Towns include: **Yukon**

Job growth (2010-2012): **8.6%**

Canadian County is digging deep to create jobs. With oil prices above \$90 a barrel, and new techniques like horizontal drilling, exploration in the area has become more economically attractive.

Performance Technologies, an affiliate of Chesapeake Energy, recently built a base for its pressure pumping service business in El Reno, the county seat. The move created 300 jobs. Nomac, the fastest-growing oil and natural gas driller in the U.S., is another El Reno-based Chesapeake Energy affiliate operating in the area.
